Introduction	
Legal clinics: a democratic perspective in the teaching of law	XIX

I

Constitutional principles and effective justice

1. Access to justice as the supreme constitutionally guaranteed principle	1
2. Work as a vehicle for the principles of equality and solidarity toward substantial justice	8
3. Effectiveness, efficiency and economy of the judgment: illusion or reality?	14
4. The demands of justice based on health, migration, climate change and social relations	18
5. Constitutional foundations: The principle of horizontal subsidiarity and the search for alternatives to a trial	22

II**Effective justice vs. age and cognitive and psychiatric disabilities**

1. The elderly in the law 25
2. The need for justice for persons with cognitive and psychiatric disabilities 32
3. The costs of justice and remedies to mitigate them 36

III**Legal clinics, solidarity and subsidiarity**

1. Introduction. The theoretical approach: Legal clinics and the Constitution 51
2. The principle of solidarity. A principle straddling rights and obligations 53
 - 2.1. Legal clinics as a tool manifest the solidarity principle 56
3. The origin of the principle of subsidiarity 57
 - 3.1. Hypotheses on the constitutional significance of the principle of subsidiarity 60
 - 3.2. Horizontal subsidiarity and legal clinics 63

IV**Legal clinics and access to justice**

1. Access to justice: The role of counsel 67
2. Beyond access to justice: Legal clinics and the discovery of rights 74
3. The commons. Overview 76
4. The added value of the specificities of each legal clinic 80
5. Legal clinics and the system of rights: Proposal for a complete overhaul 81

*pag.***V****Defining issues**

- | | |
|---|-----|
| 1. Ideas for the search for a definition. Critical aspects | 87 |
| 2. A matter of translation and its systematic consequences | 95 |
| 3. Legal clinics: An overall view, between method and material | 96 |
| 4. Values, ideologies and learning | 104 |
| 5. Legal clinics: Professional practice, internships and seminars | 106 |
| 6. The definition. An open question | 107 |

VI**Conclusions. Contextualising elements of legal clinics**

- | | |
|--|-----|
| 1. The origins. Historical evolution of American legal clinics. Overview | 111 |
| 2. The German case: Alternative model or different aims? | 118 |
| 3. Hypothesis on the validity of the clinical method applied to Law | 120 |
| 4. The Italian context | 122 |
